

PlateTronic Ultima Installed Above Ground September 2003

Safe-T-Stop turned a 'worthless piece of concrete' into my biggest income earner!

Every car booked in for a service automatically gets the 'Safe-T-Stop Treatment'. Brake, wheel alignment and shock absorber sales have increased dramatically from the first week since introducing the Safe-T-Stop test.

I have been using the system since August 2003 and it has already paid for itself completely.

My staff also likes using Safe-T-Stop because it is easy to use and trouble free!
